Dear Sirs

Ref; County Development Plan

I am writing to yourselves regarding getting my land in Roscarban on the new Development Plan (See Map attached – Shaded Area)

I am considering relocating to Roscarban with my wife as I am fully retired, I also have a Daughter who is living with my wife and myself, and she will also be relocating with us.

The Roscarban land identified has been in my family for over 100 years but it has only recently come into my ownership allowing me the opportunity to consider relocating.

I have two other married daughters with husbands and children and due to Covid and the new opportunity for them now being able to work from home / remotely, they have both expressed their interest in possible relocating to Roscarban as they would be familiar with the area having visited their Uncle, my brother who has recently passed away and their grandmother over the years when growing up.

I would greatly appreciate if you can look into getting the land as indicated on the attached Map include in the new Development Plan to assist in the process of allowing myself and daughters to have a real opportunity of considering relocating.

Many thanks

The registry operates a non-conclusive boundary system. The Registry Map identifies properties not boundaries meaning neither the description of land in a register nor its identification by reference to a registry map is conclusive as to the boundaries or extent (see Section 85 of the Registration of Title Act, 1964). As inserted by Section 62 of the Registration of Deed and Title Act 2006.
