Subject: biodiversity of County Leitrim

Dear Leitrim County Council,

I have been doing some homework on the biodiversity of County Leitrim.

According to the NBN Atlas; there are perhaps 6086 species on record from County Leitrim on the basis of 19440 occurrence records, on 27 iv 2022.

The National Biodiversity Data Centre have records of 1027 taxa from County Leitrim. This excerpt is between 01 jan 2010 and 31 dec 2022.

With kind regards,

Howard Fox
Botanist
