

*The Department of Rural and Community Development, the County and City Management Association and the Local Government Management Agency jointly published the public library strategy, 'Our Public Libraries 2022' in 2018. The objective of the strategy is to consolidate the role of the library as the public face of local authorities. However, the strategy recognises that renewed investment in the development of library buildings, technology and other equipment is essential for libraries to deliver quality services. In line with this objective, library infrastructure development should be incorporated in the County Development Plan for Leitrim County Council.*
