Subject: Gold mining in Leitrim and the rest of Ireland

Dear Sir/Madam,

Please let it be known that I am completely opposed to any form of gold mining taking place in Ireland as it will undoubtedly damage health and the environment and be of benefit mainly to a few offshore people or companies that will not spend their income or pay their taxes here. I know the vast majority of Leitrim people are completely opposed to mining and will make any representative, local or national, pay dearly for any support of gold mining at subsequent elections.

Yours sincerely,
Mike Harris
