Subject:

Leitrim County development plan

To whom it may concern.

I wish to voice my concern about gold mining in Leitrim. As this process is harmful for the environment, uses polluting chemicals which are known to destroy the water and the neighbouring country side Leitrim county council should ban the gold mining outright in its development plan.

The development plan should reflect the green outlook of the majority of leitrim's inhabitants and aim to protect its unique habitats and scenery ideal for tourists and locals alike

Yours sincerely

Mary luthers
