Joint submission to the **Draft Leitrim County**  
**Development Plan 2023-2029**

On the issue of depopulation from the communities of Glenfarne, Kiltyclogher and Rossinver. We agree with the proposal at national level to financially support the bringing back to life the unoccupied dwellings in towns and villages all over Ireland.

We are asking Leitrim County Council as part of the solution in our rural communities that the depopulation would incorporate into the new county development plan a strategic aim to bring back to life the many unoccupied dwellings in rural County Leitrim.
